

Mykhailo Kukol

Odesa, Odes'ka, 65025 | +380955835772 | mykhailokukol@gmail.com

Education

BACHELOR | 01 SEP 2015 – 25 JUN 2019 | ODESA NATIONAL ACADEMY OF TELECOMMUNICATIONS

- Department of Software Engineering
- GPA in specialized subjects: 85/100

Skills

HARD

- Python, PEP 8
- SQL: PostgreSQL, MySQL
- NoSQL: MongoDB
- Django, Django REST Framework
- FastAPI
- Celery
- Redis
- WebSockets
- Unittest
- SQLAlchemy
- Git; GitHub, GitLab, Bitbucket
- AWS: LightSail, S3, RDS, Route53
- CI/CD (GitHub Actions)
- Docker, Docker Compose
- Bash
- python-telegram-bot

Other:

- GitHub Dashboard, Trello
- Slack, Microsoft Teams
- Linux, Microsoft Windows
- Understanding how frontend works

SOFT

- Quite communicative: ready for constructive criticism, make suggestions to improve the product(s), always communicate with PO (and/or PM), frontend, QA teams and backend colleagues.
- Prefer to avoid conflicts in any way. It's better to find a compromise than ignore a problem.
- I think about myself first. Naturally, I think about the people around me and the company, but for each person he should be in the first place for himself.
- I prefer completed tasks on time rather than hourly pay (I can work from 4 to 12 hours a day depending to the tasks).

Commercial work experience

BACKEND ENGINEER | LUXE QUALITY | 26.03.2021 – REAL TIME

- Implementing features according to complicated business logic and fixing bugs on big e-commerce project (service purchases/sales) and small CMS with restricted access (like "Hurma").
- Made decisions on the architecture of each of the projects I worked on.
- Taking a part in the deployment of each of the projects, including the company's website.
- Implemented the Telegram bot for e-commerce project.

Contacts

The best way to contact me is email, but you can use other if it's urgently.
